

# Sentence Practice

• 정답 p.72

**C** 다음을 /로 끊어 읽기를 표시하고, 빨간색으로 된 부분에 유의하여 해석해 봅시다.

<sup>①</sup>How do animals taste their food? <sup>②</sup>Most animals taste food with their tongues, just like  
\_\_\_\_\_  
us. <sup>③</sup>However, some insects have very different ways of tasting. <sup>④</sup>Take flies, for example.  
\_\_\_\_\_

<sup>⑤</sup>They taste with their feet! <sup>⑥</sup>They have many special hairs all over their feet. <sup>⑦</sup>These hairs  
\_\_\_\_\_  
help them sense flavor. <sup>⑧</sup>**That's why** you sometimes see them walking all over your food.  
\_\_\_\_\_

<sup>⑨</sup>Butterflies and spiders also have this cool trick. <sup>⑩</sup>Butterflies can find out which flowers  
\_\_\_\_\_  
are sweet by stepping on them. <sup>⑪</sup>Spiders use their feet to check if something is good to  
\_\_\_\_\_  
eat. <sup>⑫</sup>What about honey bees? <sup>⑬</sup>They use the tips of their antennae. <sup>⑭</sup>Their antennae are  
\_\_\_\_\_  
like little taste testers. <sup>⑮</sup>They help bees find the honey inside flowers.
