^①In the ocean, a shark can grow **to be** 150 to 210 centimeters long. ^②What happens if a
baby shark is placed in a small fish tank? ^③It may only grow **to be** 30 centimeters long.

^④Surprisingly, our minds can be like that baby shark. ^⑤A person with only common ideas
is like a shark in a fish tank. ^⑥If we only accept simple, familiar ideas, our minds will not
grow. ^⑦However, if we take in big, challenging ideas, our minds will grow. ^⑧This is just like
a shark in the ocean. ^⑨**To grow and become great**, leave your comfort zone. ^⑩Challenge
your mind and explore different ideas. ^⑪Read books and gain a lot of knowledge. ^⑫Go on
adventures and experience new things. ^⑬Then, you will be ready to achieve your goals.
