^①Jonas Salk, a scientist from the United States, helped change the world. ^②In the 1950s, _____
polio was a serious disease because it **made many children sick**. ^③Salk worked for years

to create a vaccine. ^④After many tests, it finally worked. ^⑤His vaccine saved countless lives,

but he did not get a patent. ^⑥**When asked who owned the patent**, Salk said, "The people.

Could you patent the sun?"

^⑦Masahiro Hara, an inventor from Japan, did a similar thing. ^⑧In the 1990s, he created

the QR code. ^⑨He made it while working at Denso Wave. ^⑩His invention **made it easier**

to store and share information. ^⑪Like Salk, Hara chose not to patent his work. ^⑫His

company allowed everyone to use the QR code freely, which helped it spread around the

world.

^⑬Both Salk and Hara put people before their own interests. ^⑭**If they had wanted, they**

could have become very rich. ^⑮However, they believed great ideas should serve everyone.

^⑯Their choices made the world a better place.
